PROGRAM OBJECTIVE:

The objective of the **Heroes and Heroines Paisanos Program** is to establish preventive policies, strategies and actions aimed at providing assistance and guidance to ensure that the entry, transit and exit of Mexicans residing abroad is carried out with respect for their rights, the safety of their assets and understanding of their obligations.

Upon your arrival in Mexico, look for the Paisano Modules. These are staffed by “Observers” members of civil society, who provide information on government procedures and services available both inside and outside of Mexico.

Futhermore, if you are a victim of abuse by federal, state or municipal public servants during your transit through the country, these observers can receive your complaints and forward them to the appropriate authorities for investigation

Paisano observers are individuals like you, they have a vocation for service and are eager to support you on your way through Mexico.

Cuilápam de Guerrero, Oaxaca

During 2026 the corresponding fee for this tax is \$983.00 (Nine hundred and eighty-three pesos 00/100 M.N) per person, which is updated on January 1st of each year.

If you have Mexican nationality you won't pay the DNR fee.

HOUSEHOLD GOODS

If you are returning to live in Mexico voluntarily or due to an order from the competent U.S. authority, and you want to bring your personal belongings as well as the tools you used for your trade in the United States, you may request the procedure either **in person** at the nearest Mexican consulate or **online** by visiting:

<https://www.menajedomestico.gob.mx/>

You will only need to present a document proving your nationality and complete the list of items found on that website.

IF YOU WERE BORN IN THE USA AND YOUR MOTHER OR FATHER ARE MEXICANS, YOU ARE ALSO ENTITLED TO MEXICAN NATIONALITY.

Dual Nationality gives you benefits.

When you obtain the Mexican nationality, you do not lose the American nationality, even if you were born outside Mexico. If you were born in the United States of America (USA), you may obtain the Mexican nationality if you are a descendant of a Mexican national. Visit the nearest Mexican consulate to request your Mexican birth certificate and passport.

Check the consular offices directory here: <https://consulmex.sre.gob.mx/>

If you were born in Mexico and obtained US citizenship before March 20, 1998, now you may reclaim your Mexican citizenship. Check the requirements on the website: <https://sre.gob.mx/declaratoria-de-nacionalidad-mexicana-por-nacimiento>

You may also be eligible for the American citizenship without losing your Mexican nationality. If your mother and/or father is an American citizen or if you already lived for at least 5 years as a permanent resident in the United States, you may be eligible for the American citizenship. Check the requirements on the following US government website: <https://www.usa.gov/espanol/naturalizacion#:~:text=Las%20personas%20nacidass%20en%20Estados,a%20trav%C3%A9s%20de%20los%20padres>

Who is entitled to Mexican nationality?

- People born in Mexico.
- People born abroad, descendants of Mexican nationals.
- People born abroad, descendants of parents who were naturalized as Mexicans before their birth.
- People born on board Mexican war or commercial vessels or aircraft.
- People of Mexican nationality who obtained another nationality after March 20, 1998 or who have a “Declaration of Mexican Nationality” by having obtained another nationality before that date.
- Foreigners who obtain a naturalization letter from the Mexican Secretariat of Foreign Affairs (SRE).

IF YOU HAVE NOT YET COMPLETED THE DUAL CITIZENSHIP PROCESS FOR YOUR CHILDREN, YOU MAY DO SO EITHER ABROAD OR WITHIN MEXICO.

In the USA: To register a person who was born outside the national territory as a Mexican, and who is a descendant of a Mexican national, visit your closest Mexican consulate. Schedule your appointment by contacting your consulate at the following link: <https://www.miconsulado.sre.gob.mx>

The requirements to obtain a Mexican birth certificate are:

- a. The person to be registered must be present, and if it is a minor, he or she must be in the company of his or her parents or those who are exercising parental authority (they must present power of attorney with a single clause or sentence of the judge).
- b. Proof of Mexican nationality of the mother, father or both, such as a birth certificate, naturalization letter, declaration of Mexican nationality, valid Mexican passport or a consular registration. This requirement only applies if the person to be registered was not born in Mexico.
- c. Certified copy of the local birth certificate of the person to be registered, if he or she was born abroad. If the document is in a language other than Spanish or English, it must be translated into Spanish, but it does not need to be apostilled, unless it has been issued in a country other than where the consular office is located. In this case, the “Long Form” of the document must be legalized or apostilled, as applicable. For further reference, we provide the link to the “vital records” page, which explains the “Long Form” format of the birth certificate: <https://www.vitalrecordsonline.com/blog/long-form-vs-short-formbirthcertificate/#:~:text=Long%2Dform%20birth%20certificate%20is,exists%20and%20is%20on%20file>
- d. Present valid and signed identifications of everyone involved in the registry.

In Mexico: The procedure to register your sons or daughters as Mexicans is called "REGISTRATION OF ACTS OF THE CIVIL REGISTRY OF MEXICANS CARRIED OUT ABROAD". You may apply at your local Civil registry office. By way of example, visit the Directorate General of the Civil Registry of Mexico City website: <https://registrocivil.cdmx.gob.mx/step/22> ,

Select the option "REGISTRATION OF ACTS OF THE CIVIL REGISTRY OF MEXICANS CARRIED OUT ABROAD" to consult the costs and requirements to be covered.

It is sufficient to present the foreign birth certificate along with the birth certificate of the Mexican parent(s) to establish identity and Mexican nationality. Therefore, consular legalization or an apostille of the local birth record of the person being registered will not be required. A simple translation of the certificate into Spanish must be included.

- **Permanent Import or Legalization of Foreign Vehicles**

You must hire the services of a Customs Broker, who is the authorized person to handle import procedures before Customs.

It is important to note that the “Decree encouraging the legalization of used foreign vehicles” concluded on December 31, 2025. In that sense, those interested in importing used foreign vehicles must do so exclusively in accordance with the current legal framework specifically, the “Decree regulating the permanent import of used vehicles,” published on November 4, 2024, and renewed on November 5, 2025. This includes complying with applicable physical, mechanical, and environmental requirements, as well as the payment of corresponding tariffs.

National Guard- Roads

The first contact that our fellow citizens have with the National Guard personnel is usually with those assigned to guard the country's federal highways and international airports. Under the command of the 32 State Coordinations of the National Guard, organized into 33 Coordinations of Security for Communication Routes, they carry out the functions of inspection, security, verification, surveillance, crime prevention, and within their area of competence, combating crime, on the 49,940.24 kilometers of highways under federal jurisdiction, and 428.47 kilometers of roads in international airports, divided for this purpose into 1,589 sections. Their main objective is to address the axes of accident prevention and attention to crime incidence.

National Guard Highway Patrol personnel, in the exercise of their duties regarding inspection, safety, verification, surveillance, and crime prevention, carry out preventive and security operations on federal highways through two main approaches: accident prevention and public safety.

To prevent accidents, they implement carousel and radar operations.

Regarding security, they carry out operations such as seatbelt, helmet (motorcyclist), security for cargo, passenger and tourist transport, anti-assault, 30D, and 30M.

In addition, they offer support to citizens in case of minor incidents through the Caballero del Camino operation.

- Stay hydrated during your journey, especially children and older adults. Preferably consume potable water.
- Carry packets of oral rehydration solution. If children or older adults experience symptoms

- Combat diarrhea and dehydration with Oral Rehydration Salts (ORS)—it is the most effective solution!

- Keep ORS packets at home to prepare and give to children at the first sign of diarrhea.
- If diarrhea occurs: Do not stop feeding, increase fluid intake (especially ORS), and seek medical advice at a health clinic.

Early Warning Signs of Dehydration: If your child has diarrhea and shows any of the following signs, seek medical attention immediately:

- Appears to be getting sicker or is unusually lethargic.
- Intense thirst or, conversely, refusal to drink or eat.

Pregnancy

- Proper care during pregnancy is essential, and sometimes extra precautions are needed when traveling. Therefore, before traveling, be sure to schedule a check-up with your doctor.
- Wear comfortable clothing and shoes, and avoid anything that puts pressure on your waist and legs (such as tight belts or garters).
- Stay hydrated and maintain a healthy diet.
- In the event of an emergency during pregnancy, childbirth, or postpartum, hospitals under the Ministry of Health, IMSS Welfare, IMSS, or ISSSTE are obligated to provide care for all women.

If these warning signs or symptoms occur, go immediately to the Health Unit:

- Headache.
- Blurred vision or seeing small lights, along with ringing in the ears.
- Swelling of the face, hands, or feet.
- Blood or fluid leaking from the vagina.
- Decreased baby movements.

Accident Prevention

- When crossing streets and avenues, always look both ways before crossing.
- Use pedestrian bridges and obey traffic light signals.
- Whenever possible, inform your family and friends of your destination, your plans, and how you will get there.
- If you or your companions are injured, seek help from others, police vehicles, *or patrol cars*.

Alternatively, call the emergency number (911) or go directly to the nearest health unit.

Chronic Disease Care and Medical Treatment

It is important that you and your companions continue your medical treatment during your stay in Mexico. To do so, you should:

- Carry the medications recommended by your doctor.
- Keep the medical prescription or a copy of it with you.
- Take medications as prescribed.
- Bring an adequate supply of medications for the duration of your stay.
- Visit a doctor or Health Unit if you experience any discomfort.

Dengue and Other Vector-Borne Diseases

Dengue, malaria, Zika, and other diseases are transmitted by mosquito bites.

- Find out if these diseases are present in your destination.
- Wear long sleeves and use mosquito repellent.
- Clean your home and yard to eliminate mosquito breeding sites such as used tires, vases, buckets, etc.
- If you are bitten by mosquitoes and develop a fever, body aches, headache, or pain behind the eyes, seek medical attention immediately at a doctor's office or Health Unit. ¡Do not self-medicate!

Measles

Measles is a viral disease that is easily transmitted through droplets of saliva from an infected person's cough or sneeze. Vaccination is the main prevention tool. Thanks to vaccines, many people are protected and outbreaks can be quickly controlled.

Who should get vaccinated?

- Girls and boys from 6 months to 9 years old.
- Adolescents and adults aged 10 to 49 who do not have complete vaccination schedules.

The most common signs of measles include:

- Fever
- Nasal congestion

- Small spots inside the mouth
- Skin rash that starts on the face and spreads to the body

In the Health Units, the following services are offered:

- Emergency care, vaccine administration, medical consultations, dental care, and prenatal care.
- Distribution of "Vida Suero Oral" sachets.

EDUCATIONAL SERVICES

When returning from the U.S., your children can continue their education in Mexico."

"How do I enroll them?"

Preschool, elementary and middle school

The admission of students to public and private preschool, elementary and middle schools will be immediate and will be done by presenting the following:

- Birth certificate or equivalent document issued abroad: When registering, the name will be recorded as it appears on the document presented during admission to basic education institutions.
- Academic document: To ensure continuous access to preschool, elementary, and middle school education, the student must be placed based on the document verifying the last grade completed. If the academic document is not provided, the student will be placed according to the relevant school placement procedure.

All children and adolescents have the right to attend school, regardless of their immigration status, even if they do not have identification or academic documents.

If you have any questions, you can contact the authorities responsible for school oversight, as listed in the school

control directory, which can be found on the following website:

https://dgair.sep.gob.mx/dir_pps

<https://dgair.sep.gob.mx/ce/directorios>

High School Education

For admission to the first cycle of baccalaureate in public schools and educational services, the applicant must undergo the diagnostic evaluation or selection process determined by the educational authority, in addition to complying with the requirements set forth therein.

For admission to private schools and educational services with Recognition of Official Validity of Studies (RVOE), Incorporation Agreement or Decree of creation, applicants must comply with the requirements and procedures established by the educational authorities of such institutions.

Students with partial high school credits who wish to continue their studies will be granted access to facilities and services subject to availability and enrollment limits. Applicants must meet the admission requirements in effect at the time of entry.

If there is no place available, the educational authority will provide the necessary guidance regarding those schools and/or educational services that have the capacity for their admission or, if applicable, the school control area(s) to which they can go for support in their location.

In addition, they will have the opportunity to accredit the baccalaureate in the educational options of certification by partial evaluations (non-school mode) or certification by examination, provided they meet the requirements set by the educational or evaluating authority.

University Education

If it is for purely academic purposes, the revalidation of studies will not be required when they intend to start higher education studies, in case of joining a Private Institution of Higher Education with Official Validation of Studies (RVOE) or a public university that is not autonomous.

According to the rules and general criteria to which the revalidation of studies carried out abroad will be adjusted, under agreement 02/04/17, guideline 20.2, it will only allow young people who will begin their higher education studies to do so without the need for the revalidation of studies at the previous level; however, for those who have completed some semesters and will continue their studies in national territory, it will be necessary to have the partial revalidation.

With the exception of normal education, when the interested party, with studies completed and carried out abroad, intends to become an academic or when he/she wishes to begin higher education studies in any official or private institution with recognition of official validity of studies, for exclusively academic purposes, it will not be necessary to revalidate said studies.

In the event that the interested party intends to practice professionally in Mexico, he/she must obtain the revalidation of the academic background and comply with the regulations applicable to such practice.

It must be considered that, in the case of autonomous universities, such institutions have their own conditions regarding the admission process.

In the event that they require professional practice, this must be done previously through the process of revalidation of studies, for the recognition of these and subsequently obtaining the professional license.

4.- ON YOUR DEPARTURE FROM MEXICO:

Necessary documents to leave national territory in the modality “exit of Mexicans”:

Applicable to Mexicans who leave national territory through a place intended for the international transit of people (by air, land, or sea). All of the following original documents indicated below are required:

- Valid and current Passport;
- Statistical Form for Mexicans (SFM); which you can be physical or digital, and you can download it from the following link: <https://www.inm.gob.mx/fem/>

For Mexican nationals departing the country by air:

- The Statistical Form for Mexicans must be completed and submitted to the airline at the time of boarding. If using the digital version, it must be presented to the airline staff before boarding.

In the case of children, adolescents, or persons under legal guardianship, they must be accompanied by one of the individuals who holds parental authority or legal guardianship over them.

If they are accompanied by a third party of legal age or traveling alone, they must present their passport and the document showing authorization for their departure from national territory, issued by the person exercising parental authority or guardianship, granted before a notary public or the competent authorities; or

The document established for this purpose by the immigration authority (SAM Form).

Do you require your minor descendants to leave the country, but you cannot accompany them?

At INM we have a solution for you.

With the Minor Departure Form (SAM), minors may leave the country either alone or accompanied by a third-party adult other than a parent or legal guardian. This measure is designed to prevent the illegal abduction of minors from the country.

Who requires the SAM Form?

Minors Mexican nationality or with dual citizenship (where Mexican nationality can be proven/verified), as well as minors of a nationality other than Mexican who hold a legal immigration status in Mexico (temporary resident, temporary student resident, permanent resident). Get your SAM Form by clicking the link below:

<https://www.gob.mx/inm/acciones-y-programas/formato-de-salida-de-menores>

Complete the payment of \$294.00 MXN online using a Visa or MasterCard credit or debit card. This fee covers the issuance of the SAM Form. Once paid, complete the corresponding registration at the link provided above.

You must then visit any INM office or service modules located at international air, land, or sea transit points with the following documentation:

- Passport.
- The minor's Birth Certificate (for information verification).
- ID of the person authorizing the minor's departure (mother, father, or legal guardian).
- Passport of the third party accompanying the minor, if applicable.

Finally, INM staff will validate and stamp the form, and that's it! Your child can safely depart the country.

Important Reminders:

- Single Use: The form is valid for one use only.
- Validity: It is valid for 180 days from the date of issuance until it is used.
- Minor's Presence: The minor does not need to be present during this administrative process.

For more information, please visit: <https://www.gob.mx/inm/acciones-y-programas/formato-de-salida-de-menores>

The aforementioned benefit will not be applicable when the vehicle is subject to an Administrative Procedure in Customs Matters (PAMA) or a Judicial Process.

- **If your vehicle suffered a theft or accident in Mexican Territory**

You must go to the nearest Customs Office where the theft or accident involving the vehicle occurred and comply with the requirements outlined in the **“Manual for Users Conducting the Procedure for the Temporary Entry of Vehicles and Temporary Importation of Vehicles, Motorhomes, and Vessels of Foreign Origin”**, which can be consulted on the National Customs Agency of Mexico (ANAM) website through the following link: <https://anam.gob.mx/importacion-de-vehiculos-v2/>.

If your vehicle was involved in an accident, stolen, sold or confiscated, or is abroad, and you wish to cancel the temporary entry and import permit without physically presenting the vehicle, you must follow the appropriate procedure.

What is human trafficking?

Human trafficking is a crime in which the rights and dignity of its victims are annulled by being considered an "object" that can be traded.

It is an illegal activity whose purpose is to attract a person through deception, violence or promises to exploit them.

Exploitation can occur in different areas such as sexual, forced labor and services, begging, servile marriages, among others.

Approximately 80% of victims of human trafficking and the various types of exploitation worldwide are women and girls; therefore, these crimes must be explained in terms of gender inequality, discrimination, and the forms of violence that undermine the access, exercise, and respect of the rights of women and girls.

What is human trafficking?

With the signing of the Protocol to Prevent, Suppress and Punish Trafficking in Persons, especially Women and Children (Palermo Protocol, 2000), which complements the United Nations Convention against Transnational Organized Crime, an internationally agreed definition of "trafficking in persons", was established. This definition includes various

Human trafficking is a crime.

With the signing of the Protocol to Prevent, Suppress and Punish Trafficking in Persons, especially Women and Children (Palermo Protocol, 2000), which complements the United Nations Convention against Transnational Organized Crime, an internationally agreed definition of "trafficking in persons", was established. This definition includes various forms of exploitation, and any person—whether woman, man, child, or adolescent—can be considered a potential victim.

Article 3 of the Protocol to Prevent, Suppress and Punish Trafficking in Persons indicates the **definition of trafficking in persons**, which for didactic purposes, is divided into three parts (conduct, means and ends):

Behaviors: Recruitment, transportation, transfer, shelter or reception...

Means: threat or use of force or other forms of coercion, kidnapping, fraud, deceit, abuse of power or a situation of vulnerability or the giving or receiving of payments or benefits to obtain the consent of a person who have authority over another...

Purposes: This exploitation will include, as a minimum, the exploitation of the prostitution of others or other forms of sexual exploitation, forced labor or services, slavery or practices similar to slavery, servitude or the removal of organs.

The victim's consent shall not be taken into account when any of the aforementioned means have been used.

It is important to highlight that when the victim is a child, or adolescent, it is not necessary for any means of trafficking to have been used, for them to be considered as a victim of human trafficking.

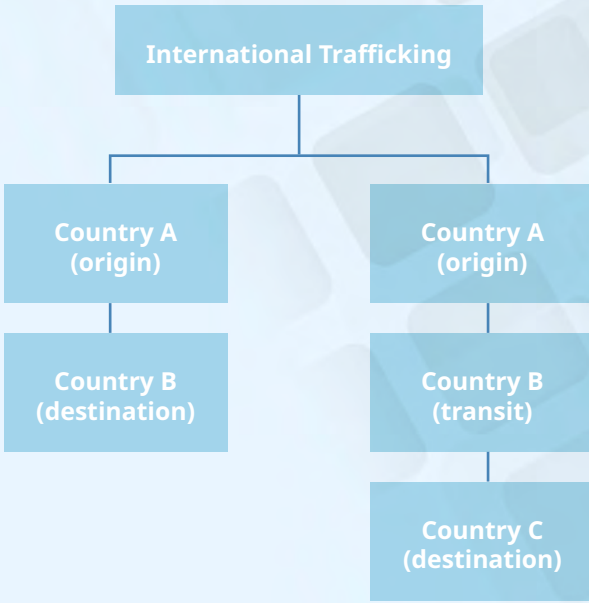

The victim's consent shall not be taken into account when any of the aforementioned means have been used.

It is important to highlight that when the victim is a child, or adolescent, it is not necessary for any means of trafficking to have been used, for them to be considered as a victim of human trafficking.

- **Internal and international trafficking**

Although human trafficking is defined in the context of a supplementary protocol to the United Nations Convention against Transnational Organized Crime at the international level, it can also occur within a national context.

When the entire process takes place in a single country, it is known as internal trafficking. While when there is a border crossing, it is international trafficking.

• **Trafficking in persons and smuggling of migrants**

The term human trafficking is often confused with smuggling. Much of this confusion is due to the fact that most of the texts that started to be developed on human trafficking were written in English, so when the literal translation into Spanish “traffic” was made, both terms were mixed.

Both human trafficking and the smuggling of migrants refer to two different problems, so it is important to use the terms correctly.

Human trafficking	Migrant smuggling
<p>“Training, transportation, transfer, shelter or receipt of a person [...] for their exploitation.” Protocol to Prevent, Suppress and Punish Trafficking in Persons</p>	<p>Article 3: “(a) ‘Smuggling of migrants’ shall mean the facilitation of the illegal entry of a person into a State Party of which that person is not a national or permanent resident, in order to obtain, directly or indirectly, a financial or other material benefit.” <i>Protocol against the Smuggling of Migrants by Land, Sea and Air</i></p>

• **Types of exploitation**

The purpose of human trafficking is the exploitation of its victims. The Protocol to Prevent, Suppress and Punish Trafficking in Persons, especially Women and Children, indicates different types of exploitation:

- prostitution or other forms of sexual exploitation,
- forced labor or services,
- slavery or practices similar to slavery,
- the easement or
- trade in organs.

The different types of exploitation (with the exception of “prostitution or other forms of sexual exploitation” and “organ trafficking”) are defined in other international instruments.

Additionally, it is highlighted that in the definition of human trafficking, the Palermo Protocol mentions the words “as a minimum” when it states the different types of exploitation: “This exploitation will include, as a minimum, the exploitation...”.

The inclusion of this phrase was made for two reasons; the first, so that the Protocol would cover future forms of exploitation and the second, to allow the States Parties to broaden the crimes listed in this definition when penalizing.

Such is the case of Mexico, which in its General Law to Prevent, Punish and Eradicate Crimes in the Matter of Human Trafficking and for the Protection and Assistance to the Victims of these Crimes establishes the following types of exploitation:

- slavery,
- the prostitution of others or other forms of sexual exploitation,
- labor exploitation,
- forced labor or services,
- forced begging,
- the use of persons under the age of eighteen in criminal activities,
- the illegal adoption of a person under eighteen years of age,
- forced or servile marriage,
- trafficking in organs, tissues and cells of living human beings,
- illicit biomedical experimentation on humans

For the investigation and prosecution of federal crimes related to acts of violence against women and human trafficking, you can go to the **Special Prosecutor’s Office for Crimes of Violence Against Women and Human Trafficking (FEVIMTRA)** of the Attorney General’s Office:
