

Temporary Import of Household Goods

Permanent and Temporary Residents of Mexico have the right to import their household goods duty-free once within a period of no more than six months after the date of their formal entrance to Mexico.

Household effects are defined as those items that constitute the furnishings of a house and are exclusively for use, on their daily needs, by a person or family. This includes clothes, bedding, books, works of art and scientific materials (as long as they are not part of a collection for expositions or art galleries). All of the items must have been purchased at least 6 months before moving.
